

Our Ref: SS/Letters/Bradford/2021-2022/Parking Update January 2022

January 2022

Dear Parents and Carers

Please be aware that, commencing on 10 January 2022, Northern Gas Networks will be replacing gas pipes on Nelson Street. This could cause disruption to traffic, including the installation of temporary traffic lights, and may continue for the next five weeks.

May I please urge you to respect the safety of our College community, either by parking further along Nelson Street where there are no parking restrictions, or finding alternative legal parking in Bradford City Centre. There is also excellent public transport provision in Bradford and the use of buses or trains, whenever possible, would also help to reduce the traffic congestion at the beginning and end of the College day.

In addition, please could I ask parents and carers NOT to park vehicles on the double yellow lines outside the College on Nelson Street or within the entrance to the College car park, when dropping off or collecting students.

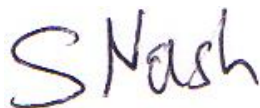

Parking and stopping within the restricted area in the vicinity of College is seriously compromising the safety and wellbeing of our students and other pedestrians, as well as hindering the access and progress of emergency vehicles.

Together with the local Police and Bradford Council, we are committed to ensuring that students feel confident that they may safely enter and leave College at all times. For this reason, any vehicle parked illegally may be ticketed.

Unfortunately, as a College community we have already experienced a road traffic accident involving one of our students, and I am sure that you will wish to help us in preventing any such incident being repeated in the future.

Thank you for your consideration and assistance.

Yours sincerely

Stuart Nash
Principal
