Dear Parent/Carer

On Wednesday 25 January, all our Year 12 Applied Science Extended Diploma students will be spending the afternoon at the University of Bradford's STEM Centre.

The students will be carrying out their Unit 4c practical - laboratory preparation and testing of paracetamol.

This is a mandatory part of the course and will replace lessons for the afternoon, so it is essential that all students attend. They will be assessed on their practical skill throughout the afternoon by their teacher.
