

Summer Independent Learning (SIL)

Year 11 – Year 12

NCFE CACHE Technical Level 3 Certificate in Childcare and Education (EYE)

Subject	NCFE CACHE Technical Level 3 Certificate in Childcare and Education (EYE)
Topic	Unit 5 Play
Timescale	20 hours
To be completed by	This work must be completed and handed in to your subject teacher on the first day of term

Background information/context

Play is a word that is widely used in the field of early years, but it is very difficult to define. It is probably one of the least understood aspects of an early years practitioner's work, yet play is probably one of the most important elements of childhood.

Task 1.

Your first task is to produce a poster (this can be handwritten or you can use power point) describing the benefits of play.

Please link this to PILES (physical, intellectual, language, emotional and social) development.

The poster must be clear to read and interesting to look at, so use images and colour as appropriate.

Task 2.

Produce a colourful booklet which can be used in a children's centre.
The purpose of the booklet is to explain child-initiated play and adult led play.

The booklet must include:

- A reference for each one.
- An explanation in your own words.
- 2 advantages.
- 2 disadvantages.

Task 3

Please complete the following table.

Type of Play	What is it Definition	Examples from an early year setting	Benefits - PILES
Sensory Play			
Physical Play			
Imaginative Play			
Creative Play			
Heuristic Play			

Task 4

Produce a colourful poster which explains children's rights to play. Please research the United Nations Convention for the Rights of the Child.

The booklet must include:

- Identify children's rights in relation to play.
- Include in this section UN Convention 1989 (article 31)
- Explain how important the EYFS is for practitioners to follow.

Task 5

Theories about play are influenced by thinkers from the past and thinkers from around the world. A theory is something that helps us to explain and answer "why?" It helps us to look at the role of play in a child's development. They all help us to learn more about children's play.

Please create a power point presentation on one of the following theorists:

- Friedrich Froebel
- Lev Vygotsky
- Jean Piaget
- Jerome Bruner.

Please highlight the theory and how it links to a child's development and play.

Please make it colourful and informative.

Advance Notice:

You will be expected to complete an assessment based on this work soon after you start at New College Bradford.

Please make sure your full name is on each task.

Please do not use any google images of children on your work.
