

January 2024

Dear Parent/Carer

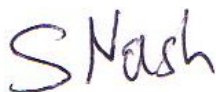

We are delighted that your child has chosen to study at New College Bradford and we are very grateful for the support you already provide in helping us ensure that our students can fulfil their potential and progress to the next stage of their chosen path.

Local governance offers a further opportunity to contribute to our local College community and we are currently seeking additional members for our New College Bradford Advisory Group from our parent body.

The role of an Advisor is a voluntary position, ensuring that the aims, visions and values of the Trust are embedded and upheld at a local level and that our students are safe, supported and well prepared for the future. We would be delighted to welcome new skills, perspectives and enthusiasm from the parents and carers of our students to complement our existing experienced Advisory Group team. The Advisory Group meets for approximately 1.5 hours around 6 times a year outside of the core day, either at College or via Teams.

If you are passionate about your child's education and the future of New College Bradford, and are interested in finding out more about this commitment, please contact the Principal's PA, Sally Cook, either by email on sally.cook@nclt.ac.uk or by telephone 01274 089152.

Yours sincerely

Stuart Nash
Principal, New College Bradford
