

# Welcome to GCSE maths

The next series of exams is in November, so it is important that you start preparing for this as soon as possible.

I have set you some work online using an app called Socrative.

1. Click <https://b.socrative.com/login/student/> to open online, or <https://www.socrative.com/apps/> to download the app (advisable)
2. The room is 1051

3. Enter your name, starting with your B number followed by your full name.

4. Do the questions, there are lots of them but they are simple. You don't have to do them all in one go, Socrative will remember where you are.
5. Make sure the work is completed before your first lesson.
6. Any additional work will be a good move on your part.
7. If you need to email me I'm at [jim.welford@nclt.ac.uk](mailto:jim.welford@nclt.ac.uk)

See you soon, Jim
